

STEEL CORD CONVEYOR BELTS

Feature/Advantages

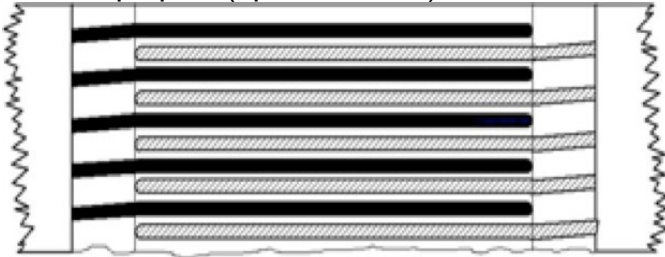

- Used in coal, ore, port, metallurgical, power and chemical industries, suitable for long distance and heavy load transportation of materials.
- Standard offered: GB/T9770, DIN22131, EN ISO 15236, SANS1366 and AS1333.
- Cover Compounds: General, Fire-resistant, Cold-resistant, Abrasion-resistant, Heat-resistant and Chemical-resistant.

Structures

Splice Configurations

One-step splice(up to ST2000)

Two-step splice(ST2500 to ST3150)

Three-step splice(ST3500 to ST4500)

Four-step splice(ST5000 to ST7500)
